

IPv4 Justification Form

Due to global IPv4 exhaustion, Nexril will be requesting justification from all customers requesting additional or large initial allocations of IPv4 addresses. All requests must be compliant with the guidelines documented in ARIN's (American Registry for Internet Numbers) NRPM (Number Resource Policy Manual) as well as RFC 2050 (Internet Registry IP Allocation Guidelines).

RFC 2050: <https://tools.ietf.org/html/rfc2050>

Section I: Customer Information

Full Name:		Email:	
Company:		Phone:	
Address 1:		City:	
Address 2:		State:	
Country:		ZIP:	
Service ID:			

Section II: Current Allocations

Please list all current allocations made to you by Nexril **for this service only**. For example, if you have two dedicated servers with Nexril, only list the IP allocations made to the server you are requesting more addresses for. You do not need to list IPv6 allocations unless otherwise requested. Do not break up allocations into smaller subnets.

Prefix	Description	% Used

Section III: Requested Allocation

Please fill in your requested prefix size as well as utilization estimates for the next 3 months, 6 months, and 1 year. When completing the Usage Justification section, you may split your requested prefix into smaller subnets.

Requested Prefix Size:			
Utilization Percentage Estimates			
Immediate	3 Months	6 Months	1 Year
